Chartered CASAC Members,

The CASAC NOx SOx Secondary Panel had a face-to-face meeting in September 2018 to peer review the agency's Second Draft Integrated Science Assessment for the NOx/SOx/PM Secondary NAAQS (ecological and welfare effects). They are nearing completion of their draft report and will be discussing their draft report in a follow-up teleconference.

As Chartered CASAC members, you need to adopt/approve the report before it can be transmitted to the Administrator. Therefore we typically have the Chartered CASAC members review the report (you would typically have 4 weeks) and join the panel's teleconference. You would have the opportunity to ask the panel questions regarding the report and to suggest edits to the report on the teleconference. The Chartered CASAC would then vote at the end of the teleconference whether or not to approve the report.

Please let me know your availability for a teleconference on the following dates and times:

Tuesday, November 13, 1-5 pm ET

Wednesday, November 14, 1-5 pm ET

Thursday, November 15, 1-5 pm ET

Friday, November 16, 1-5 pm ET

Monday, November 19, 1-5 pm ET

Tuesday, November 20, 1-5 pm ET

Monday, December 17, 1-5 pm ET

Tuesday, December 18, 1-5 pm ET

Wednesday, December 19, 1-5 pm ET

Thursday, December 20, 1-5 pm ET

Friday, December 21, 1-5 pm ET

We realize this is around the same timeframe as the Ozone IRP teleconference and PM ISA meeting and we apologize in advance, but the agency is under a tight timeframe on many of these reviews.
